

BENEFITS BEYOND THE BOND

With a full suite of bonding, damping, sealing and reinforcing solutions, the results are exponential.

SUSTAINABILITY

LOWER CARBON FOOTPRINT

As a system, our solutions can reduce, annually, **per vehicle**,

150kg of CO₂

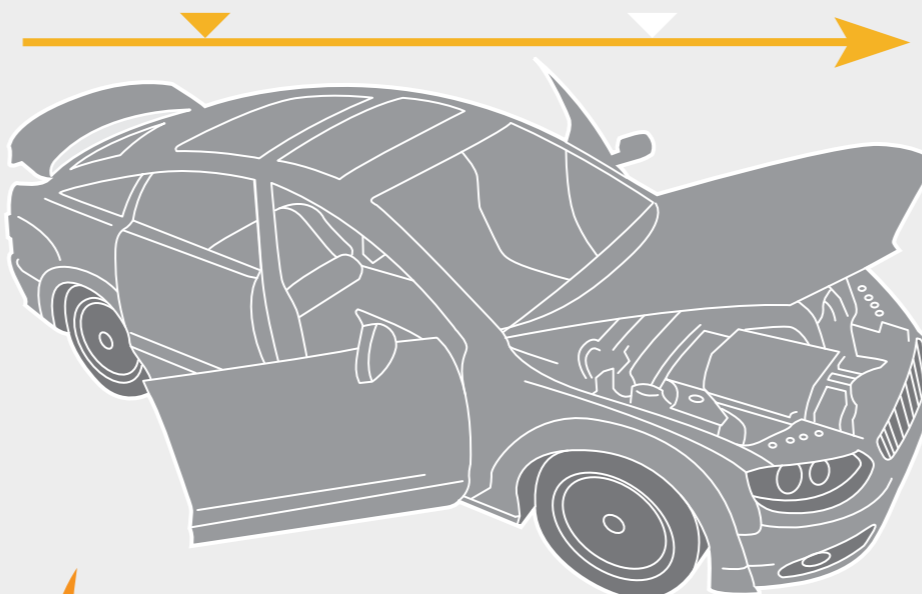

INTEGRATED SOLUTIONS

MIXED-MATERIAL BONDING

Sika adhesives are designed to bond lightweight and next-gen materials.

DESIGN EARLIER, NOT AS AN AFTERTHOUGHT

LIGHTWEIGHTING

With Sika solutions, car bodies can be up to

40% LIGHTER

SAFETY

10% INCREASED STIFFNESS POTENTIAL

Sika works with alternative materials for the same strength and stiffness as steel.

VALUE-ADDED INNOVATION

450k TONS

of steel can be saved each year by using Sika Technology with existing processes.

COMFORT

3dB REDUCTION IN INTERIOR NOISE

with systems that also enable more refined interiors.

BETTER VEHICLES START WITH SIKA

LIGHTER | STRONGER | SAFER | QUIETER | GREENER
